

Company Objectives and Targets

- To carry out a review for methods of maintaining and improving the company's Health, Safety and Environmental performance.
- To investigate the Health, Safety and Environmental Management System integrity of all new potential contractors prior to entering into any formal agreement.
- To maintain a register of contractors and subcontractors who meet company requirements.
- To introduce an appropriate method of reducing or removing hazardous substances used for cleaning/maintenance purposes, in compliance with legal and corporate requirements and time scales.
- To set targets for the reduction of accidents to a maximum of 3 Lost Time Incident a year.
- To set targets for the reduction of near misses to 3 incidents a year.
- To set targets for the reduction of energy consumption (Refer to Environmental Targets).
- Introduce a waste management programme for general waste which encourages recycling.
- To promote Health, Safety and Environmental awareness in all employees and thereby developing a well motivated proactive workforce.
- Where possible, to design, develop and use alternative safer and environmentally friendly materials and technologies.
