

COMPANY OBJECTIVES AND TARGETS

- To carry out a review for methods of maintaining and improving the Company's Health, Safety and Environmental Management System performance
- To investigate the Health, Safety and Environmental Management System integrity of all new potential contractors/suppliers prior to entering into any formal agreement
- To maintain a register of contractors/subcontractors/suppliers who meet the Company's requirement
- To introduce an appropriate method of reducing or removing hazardous substances used for cleaning/maintenance purposes, in compliance with legal and corporate requirements and time scales
- To set targets for the reduction of accidents to 3 "Lost Time Incidents" in a year
- To set targets for the reduction of near misses to 3 incident a year
- To set targets for the reduction of energy consumption
- Introduce a waste management programme for general waste which encourage recycling
- To promote Health, Safety and Environmental awareness in all employees and thereby developing a well motivated proactive workforce
- Where possible, to design, develop and use alternative safer and environmentally friendly materials and technologies
